ABOUT ME

I am a passionate Web Developer and a 4th-year Software Engineering student (CGPA 3.86) with a strong technical and interpersonal foundation. I enjoy building user-friendly websites, participating in coding competitions, and engaging in community initiatives. In my free time, I read science fiction and play football, which fuel my creativity and problem-solving skills. Driven by innovation, I aim to make a positive impact through technology.

EXPERIENCE

Apple User Interface Website

- Designed and developed a fully responsive Apple-inspired
- user interface website, replicating the modern and sleek design of Apple's official site. Utilized HTML, CSS, JavaScript, and React to ensure a seamless user experience.

portfolio website

- Developed a responsive personal portfolio showcasing skills,projects , and contact information using HTML,CSS , javasScript , and React

GitHub Contributions

- Actively contributing to open-source projects and personal repositories focused on fronted development and web design

website for Dire Dawa University Muslim Student Jemea

- Contributed as a frontend developer for a real-life project, DDUMSJ.com, a platform for the Dire Dawa University Muslim student jemea. Developed responsive and user-friendly interfaces using HTML, CSS, JavaScript, and React.
